

PADS[®] PCB Design Solutions

Hi,

We offer fully customised PADS training sessions.

The training agenda will be set by speaking with the engineers involved to make sure all the appropriate areas of the tool will be covered.

We offer training at our Saros offices or can travel to your site. If we travel we ask for £150 extra per day to cover our expenses.

Our training price is:

£500 per person per day.

Please feel free to call me anytime for a chat if you have any more questions.

Kind Regards

Alex MacDougall
